

The TAC 700 Launcher:

PepperBall® Tactical Automatic Carbine

The new TAC 700 launcher brings full automatic capability, with up to 700 rounds per minute, to your non-lethal PepperBall launcher options. Officers can quickly create large pepper clouds for crowd control, barricade busting, or more quickly achieve individual suspect compliance. Adjustable trigger settings assure the TAC 700 can be set-up to conform to agency policy while giving officers the right capabilities to achieve their goals. Trigger settings include full automatic, semi-automatic, and three round burst. The TAC 700 is our top-of-the-line PepperBall® Launcher designed to offer you the right amount of non-lethal fire power you require to control use of force situations.

TAC 700 Launcher

The PepperBall® tactical and compact TAC 700 offers you distance, speed, versatility, and maneuverability with automatic performance for non-lethal use-of-force situations.

Distance

Target accurate up to 60 ft.; area saturation out to 150 ft. with PepperBall® 3 gram PAVA pepper projectiles

Speed

Quickly deploy PAVA rounds at up to 700 rounds per minute

Versatility

Enhance officer safety and effectiveness in crowd control, jail barricade busting, domestic violence, suicide by cop, and many other one-to-one or one-to-many non-lethal situations

Maneuverability

The forward mounted high pressure air bottle allows for greater maneuverability and mobility in tactical situations

Variable Fire Power

Automatic feed system keeps rounds launching consistently while variable trigger settings allow you to conform to agency policy while giving officers the right capabilities to achieve all of their goals

Special Features:

Unique Electronics Board

Only the PepperBall® TAC-700 Launchers contain an in-house engineered, electronics board designed specifically for law enforcement applications. Benefits include simplicity, reliability, and ruggedness.

Unique Honed Barrel

Only the PepperBall® TAC-700 Launchers contain a "honed after anodized" barrel for optimal performance.

Simple Three (3) Position Adjustable Trigger Settings

Fully Automatic

Launches rounds continuously as long as the trigger is pulled

Semi-Automatic

One round launched for each trigger pull

3-Round Burst

3 rounds launched for each trigger pull

Rugged Design

Impact Resistant

Impact resistant exterior components

Automatic Feed System

Feed and Launch up to 700 Rounds Per Minute

The Automatic Feed System links the feeder sprocket to the air system. Compatible with PepperBall® "Patriot" Riot Pack

A full line of accessories and PepperBall System upgrades are available. To speak with a representative call toll-free: 877-887-3773

IMPORTANT NOTE:

Each launcher comes with adjustable trigger settings in order to allow agencies to turn individual settings on or off. PepperBall recommends the trigger setting options be adjusted and set to conform to your agency's policy.

More Options. Safer Results.
